

Dragonfly Quilts

Gateway to Mongolia Workshop with Maggie Ball

“The Ölzii, or never-ending knot, is a traditional Mongolian motif symbolizing the dynamic expanse of the universe and the endless cycles of life and death. It brings long life and prosperity, and drives away wild beasts and evil spirits. This symbol is used widely in Mongolia as decorative art and the pattern for the quilt, including the border, was taken from the door of a Mongolian ger (yurt). You may use either a dark or light background with contrasting Ölzii and border. Shading with similar values in the Ölzii adds to the subtle woven effect.”
